Spring 1925

PRICE LIST

A few items listed in our colored catalogue cannot be furnished this Spring. Use this list in making up orders. See colored catalogue for description only.

*From the Smallest to the Largest Nursery in Indiana
Established 1875*

QUALITY STOCK AT REASONABLE PRICES.

Varieties we have selected as being the most desirable for all sections and purposes. Varieties not starred are good. If you are not experienced in selecting varieties you cannot make a mistake in choosing the () starred ones.

*WITHOUT TREES AND SHRUBS IT IS ONLY A HOUSE—
WITH THEM A HOME.*

*Without Trees and Shrubs, It Is
Only a House—
With Them a Home.*

Substitution

We have found many of our customers desire us to fill their order complete by using our good judgment in selecting varieties for them in case we were short of varieties ordered. Many times we can better the selection, but if you do not wish us to use our judgment in selecting varieties to take the place of those that may be exhausted, kindly mark on the face of your order, "No Substitution," and we will gladly refund balance of your remittance.

Location

Six miles from the west corporation line of Indianapolis, on Washington Street, on the Old National Road, Pennsylvania Railroad, Terre Haute, Indianapolis & Eastern Traction Line—Stop 10, or Bridgeport Nursery.

Phone

Belmont 2218.

Visitors

You are always welcome and we will be pleased to meet you and show you through our plant, comprising more than 300 acres.

Shipping Facilities

Pennsylvania railroad making connection with all lines out of Indianapolis.

We are very fortunate to be located on the Terre Haute, Indianapolis & Eastern Traction system, which insures us twenty-four-hour delivery to most points in Indiana.

Shipping Instructions

ORDERS—All orders are accepted subject to the following terms and conditions. Write plainly and give explicit directions as to address and mode of shipment.

FORWARDING—Shipments will be forwarded exactly as directed; but where without instructions, we will use our best judgment and forward by shortest and safest route. We recommend that all herbaceous and strawberry plants be shipped by express.

CLAIMS—For damage while in transit or otherwise must be made within five days after the arrival of the consignment.

SHIPPING SEASON—Opens about March 1st in the spring and September 15th in the fall.

INSPECTION AND FUMIGATION—Our stock is regularly inspected and certificate will be sent with each shipment. Stock will be fumigated when requested, or when the state laws require it.

PACKING—All goods are carefully packed, thus avoiding risk, if delayed in transit. We do not charge for packing.

Terms

CASH WITH ORDER—Except to persons who satisfy us as to their financial responsibility, when accounts are due when bills are rendered, and prompt payments are expected.

PRICES given in this catalog are for the goods F. O. B. Bridgeport, Indiana.

STOCK SELECTED by customers at the nurseries will be charged for according to the value of the trees or plants chosen.

We do not Charge for Packing

Guarantees

In growing and furnishing all nursery stock, we use the greatest care to have it true to name, and will replace any that may prove untrue, free of charge, or refund purchase price. We shall not be liable for more than the purchase price. Every purchase from us is made on these terms.

GUARANTEE and CLAIMS—All goods are guaranteed true to name, up to grade, full count, and in good condition when delivered. Claims must be made within five days after delivery to customer's delivery point to receive consideration.

We do not guarantee stock to grow, or results in any way. There are so many causes for failure over which we have no control that we can assume no responsibility after stock is delivered in good order. Poor soil, unfavorable weather, ignorant or careless culture—all contribute to failure and all beyond our control.

A catalog as extensive as this, must of necessity offer some plants of difficult culture, and, when these are ordered, we presume the people ordering them have the knowledge needed for their culture. Successful results require knowledge, enthusiasm and perseverance, and these we can not supply, but we shall be glad to make selections from the hardier class of plants for the people who wish them.

12 to 14 ft., 2 to 2½ in.	4 50	35 00	250 00

CONIFEROUS EVERGREENS

We trim our evergreens each year. It takes more time to get a tree by using this method, since we cut off more or less growth each season, but in the end we have a much more desirable tree.

All dug with ball and burlaped—the only safe way to handle them.

ABIES —Fir			
*Balsamea (Balsam Fir).			Each
2 to 2½ ft.			\$4 00

Over Forty Years in One Location, Bridgeport, Indiana

(Parties in Ordering will Oblige us by Using this Sheet.)

C. M. Hobbs & Sons, Bridgeport, Ind.

In growing and furnishing all nursery stock we use the greatest care to have it true to name, and will replace any that may prove untrue. We shall not be liable for more than the purchase price. Every purchase from us is made on these terms. We guarantee stock to reach customer in good condition. Complaints will not be entertained unless made within five days after arrival at shipping point destination. Should any of the items be exhausted, please give a second choice or a list of such things as you would wish us to substitute for the varieties we can not furnish; otherwise we will use our best judgment and if we can not substitute satisfactorily we will return balance of your remittance. In case you do not wish us to substitute, so mark on your order.

50 cents each, \$3.50 per 10.

RULE FOR FINDING NUMBER PLANTS PER ACRE

Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or bill, which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to the acre.

Distances for Planting.

Standard Apples	40 feet apart each way
Standard Pears and Strong Growing Cherries.....	20 feet apart each way
Duke and Morello Cherries.....	18 feet apart each way
Standard Apricots, Peaches and Plums.....	18 to 20 feet apart each way
Dwarf Pears	10 to 12 feet apart each way
Dwarf Apples	10 to 12 feet apart each way
Grapes	rows 10 to 16 feet apart; 7 to 16 feet in rows
Quinces	10 to 12 feet apart each way
Currants and Gooseberries	4 feet apart
Raspberries and Blackberries.....	3 to 4 by 5 to 7 feet
Strawberries, for Field Culture.....	1½ by 3 to 3½ feet
Strawberries, for Garden Culture.....	1 to 2 feet apart

We Have Grown from the Smallest Nursery

FRUIT DEPARTMENT

Fifty trees or plants of a class, as fifty Apple or fifty Cherry, or fifty Blackberries, etc., will be sold at hundred rate where ten or more of each variety are taken.
